- $6,602,544
- Revenue from sales tax and mandated cost revenues makeup our local dollars. At approximately 5 cents of every dollar, local revenues are critical to district funding.

### Federal

- $17,894,940
- Federal money accounts for nearly 13 cents of every dollar received and helps provide vital services in specific areas.

### Nutrition Services
- 3.7% 
- $5,280,831
- This funding enables MVSD to provide nutritious meals for students, including daily breakfast and lunch service.

## Adapting, Learning & Thriving

### Rising to the Challenge

The past few years brought a mix of virtual, hybrid, and in-person learning to students in Mountain View due to ongoing effects of the COVID-19 pandemic. With this came many challenges since the school district revenues are primarily driven by attendance, student attendance yields income, and the lack of attendance results in an income loss. The Mountain View community continues to work together to find creative solutions to address our declining enrollment and loss of revenue while maintaining the ability to reduce costs without harming instructional services.
Mountain View School District is committed to being good stewards of the support provided by taxpayers and to fiscal accountability, receiving 24 consecutive outstanding audit opinions on the yearly state mandated financial audit.
