For **Robinson** tech help, contact nbrokar@tps501.org

Username & Passwords

Username: 1st initial + (last)last name + last 3 digits of Student ID#

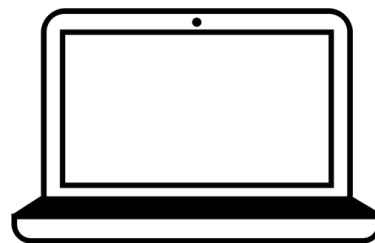

Password: ID# + Initials

Email: add @tps501.org to above login

example: Paul Jones-Smith ID#123456 = **psmith456** ~ **123456ps** ~ **psmith456@tps501.org**

Chromebook Care

- Keep passwords private & don't let others use YOUR Chromebook.
- No food or drink near Chromebooks. Keep them safe!
- Think before posting, sharing, searching, or entering a class meeting.
- Charge and UPDATE Chromebook regularly. Your Chromebook updates when you completely shut down - just closing the lid doesn't update!

You **MUST** have your Chromebook charged and ready when you're at school, and you **MUST** take it home every day!

Device Tag Number: _____

One-To-One Responsibility Agreement

At Topeka Public Schools, we believe technology plays an important role in the learning process for each student. For this reason, the district has provided each student access to technology resources. At the elementary level, this access is provided only at school, whereas at the secondary level, students are assigned a device they can also use at home.

Whether at school or at home, **students will be responsible for the care and custody of district property** assigned to them. In the same manner that a student would be held accountable for vandalism of district property, students will be held accountable for the loss or damage to district-provided technology resources resulting from a failure to take responsibility for these tools. **The district will provide students an opportunity to learn how to use these devices safely and responsibly, and families will agree to reinforce these behaviors.**

Student Cost for Damages	
Replacement of Chromebook	\$235
Replacement of Touch Screen	\$150
Replacement of Motherboard	\$100
Replacement of Palm Rest	\$55
Replacement of Battery	\$25
Replacement of Power Cable	\$20

Students will be charged a \$25 technology fee during enrollment. Students, who demonstrate responsibility and care for their assigned device as demonstrated in the lessons, will pay no additional cost this year. However, **students whose devices are lost or damaged as a result of behavior inconsistent with these expectations, will be charged loss or damage fees as shown to the right.**

Reinforcing Responsible Behaviors

Behavioral research demonstrates that students of all ages will demonstrate responsible behaviors that are taught with intention, reinforced with consistency, and assessed with frequency. Prior to receiving their assigned device, the district’s teachers will provide each student training on these responsible behaviors. **Administrators, Teachers, Parents, and Fellow Students agree to reinforce these responsible behaviors** by monitoring and complimenting students who demonstrate those desired behaviors, while modeling those behaviors for students who forget.

Students will commit to carrying their device safely, **closed with nothing between the keyboard and screen**, and supported by a firm surface to protect the screen. Students will also commit to transporting their device in a case or backpack with a protective pocket, and to **treat that case or backpack with the same care and responsibility** that is expected for their assigned device. Students will not leave Chromebooks unattended, unless secured in a safe place.

Administrators, teachers, parents, and students will help reinforce these responsibilities by **posting and referring to copies of this agreement** to promote these responsible behaviors in hallways, in classrooms, at home, and near lockers to remind us all to reinforce responsible behavior with district-provided technology devices.

We the undersigned student, parent, teacher, and principal all collectively agree to promote and to reinforce safe and responsible behaviors for district-provided student devices for which we are responsible.
